## About Me

Father, husband, grandfather of an international family, photographer, and poet. I enjoy creative practices and meditating with my cats.

## About Work

I coach Leaders and mentor young talents, to progress in complex and international environments, and develop creative leadership skills.

I lived in Asia and travelled the world for 25 years, before returning to France. I have held senior leadership positions, particularly in Finance, for multinational Groups, being also a Director and Board Member, and the business partner to leaders of various nationalities and profiles.

My coaching invites to pause and creation, breaking with the rhythm of the contemporary world.

I am familiar with fast-changing industries (e.g., Telecom and IT), complex Transformation programs and long-term projects. As a consultant, I help companies wishing to improve their Organizational Resilience. I hold MSCs in Coaching and Personal Development, in Management, and a PG Certificate in Therapeutic Photography.
